For TMX Mixed, Men's, Ladies' Friendlies, TVLL, Kennet League and KLVB Games

For all these games, you need to indicate that you are available for selection (this is the equivalent of ticking your availability on a sheet at the clubhouse containing a list of all the games).

All these games will show the status:

The squad for the KLVA team is preselected at the start of the season. If you are not part of this squad, please do not apply for KLVA games.

The process to indicate that you are available to play is the same as described above.

Team Selection

When you have been selected to play in a game, you will receive an email from BIAS confirming the position that you will play in that game. Your status will also change to:

You can confirm your availability by either:

- Replying to the email (you do not have to type anything, just reply and send) or,
- Log in to BIAS, navigate to 'Between Clubs' and then go to 'Games'. Find the game and then click the orange status button.

Once you have confirmed that you can play, you will get a second email with the details of the game, venue and the contact details of the Captain for that game. Your status will also change to:

You can view the team selection by clicking the blue status button.

Notes:

Unfortunately, the system does not currently filter games by gender. This means that ladies could apply to men's games and men could apply to ladies' games. Please be careful to check the type of game before you apply.

It is possible for a team selector/Captain to edit the selection list so if you have made a mistake or want to apply/un-apply and cannot access the system please contact the Captain for that game.
